May Perfect Attendance

What Are We Learning?

Reading

This month in literacy, we will continue using the Reading Street basal books to help increase your child's reading comprehension while addressing several skills and strategies. Students will also be reading novels. End of the year NWEA testing will continue through the month of May. Please make sure that your child continues to read 30 minutes every day.

Math

Our focus for May will be Geometry. Students will work on symmetry, plane and solid figures, angles, area and perimeter. Please keep practicing multiplication facts at home and keep doing extra ST math sessions if you are able.

Science

Students will continue to use Code.org
We will also use Super Science magazines and discuss topics such as the water cycle, energy, exosystems and computer science.

Social Science

Students will continue to investigate and analyze how geography and events far away led to the founding of Illinois and its growth into one of the most important state in the U.S. as well as learn about current events from Scholastic News!

Steps to Respect

Once a week, students will continue to learn valuable social skills in our Second Step Lessons. These lessons include learning about Empathy and Respect, Listening with Attention, Being Assertive, Respecting Similarities and Differences, and Understanding Complex Feelings, Understanding Different Perspectives, and Joining in.
